## FOREWORD

When the memories of coquina halls and moss-hung trees have faded with the years, our annual will serve to breach the gap and recapture the heart-warming scenes of a fond past. We present "The Arch" of Nineteen Fifty-three to preserve, if but few, the raptured moments of this fleeting hour.

# DEDICATION

We, the Class of 1953, dedicate this edition of "The Arch" to Mr. Frank T. Wilson, Jr. whose loyalty and fidelity have gone far in making this a successful year. We are proud of the fact that he has been our sponsor for three years. It is a privilege to humbly dedicate this book, which appears as a meager offering to his noble sacrifices and hardships.

# ALMA MATER

- I. As the breeze through moss-hung trees  
Seems to sing thy sacred name  
Thy sons and daughters love to spread  
O'er all the land thy well earned fame.
- II. We love thy halls, coquina walls  
And the friends who gave thee birth,  
The truth we learned as each heart yearned  
For higher, nobler things on earth.
- III. Should future years bring joy or tears,  
To thy name we'll e'er be true.  
To thee, we pledge our loyalty  
And dedicate our lives to you.

## Chorus

Florida Normal! Florida Normal!  
How we love to sing thy praise!  
We'll be loyal; ever loyal.  
And for thee our voices raise.

---Marie Evangeline Ferguson

## SOME JOLLY SOPHS

Wise fools they call us! ". . . no man can ever lack this mortification of his vanity, that what he knows is but a very little in comparison of what he is ignorant of. Consider this, and instead of boasting thy knowledge of a few things, confess and be out of countenance for the many more which thou dost not understand."

## SOME VERDANT FRESHMEN

The class of '56 has come to us this year high in spirit, and eager to take on and share their respective places in the Florida Normal family. May they, when only a faint wisp of nostalgia serves them readily, look back in the vast void through which they have trod only to find the guiding footprints of the class of '53.

## **RADIO AND ELECTRICITY**

The trade department of Florida Normal & Industrial Memorial College has a program including the following courses:

Automotive Mechanics

Automotive Electricity

Masonry

Electricity

Radio

Shoe Repairing

Tailoring

Carpentry and Cabinet Making

Printing.

Although the program was initiated primarily for the veterans of World War II, increasingly there is more interest being shown by non-veterans enrolling in the courses. During the past few years, trade students who were eligible have taken college work in addition to their trade schedule, thus providing them with a skill as well as affording pre-professional preparation.

We, the class of '53, sincerely hope that this integral part of the institution will continue in the great tradition of its making.

## CLASS IN UNITED STATES GOVERNMENT

"Knowledge does not comprise all which is contained in the large term of education. The feelings are to be disciplined; the passions are to be restrained; true and worthy motives are to be inspired; a profound religious feeling is to be instilled, and pure morality inculcated under all circumstances. All this is comprised in education."

So, may the books and tools of the educator be turned from the purposes of war and destruction to concentrate our attention on a peaceful future. May you, the Class of '53, face the dawn of the new world with faith, fidelity, and courage.

## STUDENT FORUM

Lindsey Heard, President (Standing)

"The more discussion the better, if passion and personality be eschewed. Discussion, even if stormy, often winnows truth from error - a good never to be expected in an uninquiring age."

## THE VARSITY "F" CLUB

Lindsey Heard, President  
(1st row, right)

"Sweet recreation barred, what doth ensue but moody and dull melancholy, kinsman to grim and comfortless despair; and at their heels, a huge infectious troop of pale distemperatures and foes to life."

The second year of the Varsity "F" Club has witnessed the rich and wholesome growth of its members. High scholarship and wholehearted participation in varsity athletics help whet the mind, which otherwise would grow dull and blunt.

# HOMECOMING

A colorful homecoming crowd of alumni and supporters travelled out to the "Little Links" to witness a breath-taking exhibition of collegiate football. Although the Savannah State team had not crashed the win column, they were confident of a seeming victory.

With their backs literally in the shadows of the goal posts, the Lions began one of those miraculous upsurges that seem to occur only in Hollywood. The Lions noticed that time was a-wasting and thought that they could not cover the necessary territory by crashing the line.

Coach Thomas' stalwarts gave their best exhibition of defensive strength and offensive prowess against a good team. So, a fighting Savannah eleven invaded the lair of the Lions only to be subdued.

# A PARTING MESSAGE

As students of Florida Normal and Industrial Memorial College, having spent the first three years in a demoralizingly turbulent and chaotic period, we have completed our stay during a period of comparative tranquility. Soon the gates of Florida Normal will have opened and closed behind us as students. One period of our life completed, we shall stand ready to enter a new, a vital, a momentous phase.

The memories of Florida Normal, however, can never be obscured from us by mere physical departure from its beautiful campus. A place in which we have made numerous friendships, - many to be life-lasting, - cannot drift from our memory like a mere whisp of smoke; it must and will stay with us through all later experiences.

Way back when Mom and Dad were graduating, I was just beginning to learn of all the ways I could help around the home.

Now, I've received my diploma as a full-fledged, all-around Household Helper. The list of things I do to help you enjoy life is many times longer than it was 25 years ago. What's more, my average hourly wage for helping with homework is just about half what it was then.
